

Every school in Thun city has school social work from Kindergarten to 9th Class

Did you know this?

“Lately my child keeps to himself.”

“Our child does whatever he wants.”

“Sometimes we have strong arguments at home.”

“Our child doesn't like going to school anymore.”

“My child is scared of being bullied on the way to school.”

“Sometimes we are insecure as parents or we feel helpless.”

To be parents is not always easy!

School social work can support you on this demanding task.

We give advice to parents and school age children and we look for a solution together to solve problems related to:

- Upbringing issues such as family rules, pocket money, free time habits, dealing with mobile phones, PCs or TV use.
- Conflicts, arguments or violence at home or at school.
- Questions about violence, drugs, sexuality, Internet and Facebook use.
- Family issues.
- Problems with classmates.
- Questions about recreational activities and leisure time facilities.

Do you have questions, worries or other concerns about your child?

School social work helps you and your child.

If necessary, we put you in contact with other departments.

Our counseling is free and confidential.

You can get in touch with school social work

- by telephone, post, e-mail and Facebook
- through your child's teacher
- Face-to-face in our office
